**INTRODUCTORY STATEMENT**

The District Governing Board has established this Advisory Committee for the purpose of obtaining input on District programs, projects and related resource management issues. The Governing Board recognizes and appreciates the significant commitment of the organizations and individuals who agree to serve on this Committee. This Advisory Committee is a valuable resource to the District and the input it provides helps to ensure the District is meeting its responsibilities in an effective and efficient manner.

The District has an eleven member Governing Board and eight basin boards comprised of an additional forty-four gubernatorial appointees. The Board appointees are citizens from throughout the District representing the numerous and varied interests which exist. The Boards hold in excess of 100 public meetings annually and provide supervisory direction to the District staff. These Governing Board and Basin Board appointees are the policy makers of the District and ensure that the District achieves its statutory responsibilities. It is the intent of these Board members that the advisory committees not be engaged in policymaking but continue in the mission of providing valuable feedback and advice on issues that are determined by Board members to be directly related to the District's statutory responsibilities.

It is in recognition of staff's ongoing obligations to these existing Boards that this Advisory Committee is established. District staff is charged with providing administrative support to the Committee, including developing and mailing meeting notices and agendas, making arrangements for meeting facilities, recording meetings and providing meeting summaries, monitoring membership and officer terms, and performing other related administrative matters.
