Framework 1 (16-3-9). 16-day archery season, 3-day muzzleloading gun season, a 9-day general gun season, a 16-day small game season and a 9-day spring turkey season. Quotas should be based on a density of one hunter per 100-150 acres (less for spring turkey)

Framework 2 (30-3-23) 30-day archery, 3-day muzzleloading gun, 23-day general gun, 30-day small game and 23-day spring turkey seasons.

This framework is considered moderate, and has a recommended hunter density of one per 75-100 acres.

Framework 3 (30-3-58) 30-day archery, 3-day muzzleloading gun, 58-day general gun, 55-day small game and 37-day spring turkey seasons.

The recommended hunter density is one per 75-100 acres.
