STATEMENT OF POLICY:

The purpose of this policy is to establish the Public Supply Advisory Committee (PSAC) to the Southwest Florida Water Management District, and to set forth the purpose, activities and membership guidelines of the PSAC.

The District Governing Board has established this Advisory Committee for the purpose of obtaining input on District programs, projects and related resource management issues. The Governing Board recognizes and appreciates the significant commitment of the organizations and individuals who agree to serve on this Committee. This Advisory Committee is a valuable resource to the District and the input it provides helps to ensure the District is meeting its responsibilities in an effective and efficient manner.

The District has a thirteen member Governing Board and seven Basin Boards comprised of at least twenty nine additional gubernatorial appointees. The Board appointees are citizens from throughout the District representing the numerous and varied interests which exist. These Governing Board and Basin Board appointees are the policy makers of the District and ensure that the District achieves its statutory responsibilities. It is the intent of these Board members that the advisory committees not be engaged in policymaking but continue in the mission of providing valuable feedback and advice on issues that are determined by Board members to be directly related to the District's statutory responsibilities.

It is in recognition of staff's ongoing obligations to these existing Boards that this Advisory Committee is established. District staff is charged with providing administrative support to the Committee, including developing and mailing meeting notices and agendas, making arrangements for meeting facilities, recording meetings and providing meeting summaries, monitoring membership and officer terms, and performing other related administrative matters.

Purpose

Subject matter considered by the PSAC shall relate to the statutory duties and responsibilities of the District. PSAC members serve as liaisons with the District, maintaining communication with members of their organizations and conveying input from the organization to the PSAC. In addition, the PSAC acts as an education extension of the District by helping to disseminate information and by advising and assisting the District in education programs and projects. A function of the PSAC shall be to provide two-way communication between the District and the public supply community.

Membership

Membership will consist of representatives of both public and private water supply utilities; these representatives are chosen on the basis of achieving representation of the types and sizes of water supply utilities located throughout the District.
