SCSC – Springs Coast Steering Committee

---

The Southwest Florida Water Management District (District) hosted a site visit at the Crystal River National Wildlife Refuge Complex Headquarters and Three Sisters Springs. The site visit of the Crystal River National Wildlife Refuge demonstrates inter-agency collaboration and public engagement for the protection of springs within the District. The tour included viewing the recently completed Three Sisters Springs Canal Shoreline Stabilization Project that exhibits restored habitats, including critical manatee habitat, and will help prevent future erosion of sediment into the spring.
