

**Statement of Sources and Uses of Funds  
For the Four Months Ended January 31, 2020**

The attached "Statement of Sources and Uses of Funds" statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of January 31, 2020, with 33.3 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District's FY2019-20 available budget of \$365.1 million. Encumbrances represent orders for goods and services which have not yet been received.

**Revenues (Sources) Status:**

- Overall, as of January 31, 2020, 83 percent of the District's budgeted revenues/balances have been recognized.
- As of January 31, 2020, the District has received \$98,991,946 of ad valorem tax revenue representing 87 percent of the budget. This is in-line with the four-months prior year collection rates of 87 percent for FY2018-19 and 87 percent for FY2017-18. The budget represents 96 percent of estimated proceeds based on the taxable property values as certified by the District's sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For FY2019-20, \$718,277 revenues have been recognized, representing 2 percent of the budget. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons; projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2019-20 interest earnings budget was based on a 2.33 percent expected rate of return. The District's investment portfolio at January 31, 2020 is earning a weighted average yield of 1.92 percent. For the four months ended January 31, 2020, the District has earned 1.96 percent yield on its investments. Interest earnings on invested funds in the amount of \$3,271,672 have been recognized representing 30 percent of the budgeted amount.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 34 percent of the budgeted amount as of January 31, 2020.
- As of January 31, 2020, other revenue earned is 723 percent of budget. Each year, items that fall within the "Other" revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of capital assets can vary significantly from year to year. The majority of the increase is due to sales of capital assets in the amount of \$4,717,511.

- Fund Balance consists of balance from prior years (budgeted for the current year) plus fund balance associated with the ad valorem funded encumbrances that rolled into the current year.

### **Expenditures (Uses) Status:**

Overall, as of January 31, 2020, the District had obligated 58 percent of its total budget.
