

**Statement of Sources and Uses of Funds
For the Five Months Ended February 28, 2019**

The attached "Statement of Sources and Uses of Funds" statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of February 28, 2019, with 41.7 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District's FY2018-19 available budget of \$362.9 million. Encumbrances represent orders for goods and services which have not yet been received.

Revenues (Sources) Status:

- Overall, as of February 28, 2019, 86 percent of the District's budgeted revenues/balances have been recognized.
- As of February 28, 2019, the District has received \$99,857,508 of ad valorem tax revenue representing 90 percent of the budget. This is in-line with the five-months prior year collection rates of 91 percent for FY2017-18 and 90 percent for FY2016-17. The budget represents 96 percent of estimated proceeds based on the taxable property values as certified by the District's sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For FY2018-19, \$1,427,020 revenues have been recognized, representing 4 percent of the budget. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons; projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2018-19 interest earnings budget was based on a 1.90 percent expected rate of return. The District's investment portfolio at February 28, 2019, is earning a weighted average yield of 2.21 percent. For the five months ended February 28, 2019, the District has earned 1.95 percent yield on its investments. Interest earnings on invested funds in the amount of \$4,186,458 have been recognized representing 47 percent of the budgeted amount.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 39 percent of the budgeted amount as of February 28, 2019.
- As of February 28, 2019, other revenue earned is 183 percent of budget. Each year, items that fall within the "Other" revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of capital assets can vary significantly from

year to year. The majority of the increase is due to a refund from a cooperator for deliverables not being satisfied.

- Fund Balance consists of balance from prior years (budgeted for the current year) plus fund balance associated with the ad valorem funded encumbrances that rolled into the current year.

Expenditures (Uses) Status:

Overall, as of February 28, 2019, the District had obligated 71 percent of its total budget.
