

**Statement of Sources and Uses of Funds
For the Nine Months Ended
June 30, 2024**

The attached “Statement of Sources and Uses of Funds” statement is provided for your review. This financial statement provides summary-level revenues (i.e., sources) and expenditures by program (i.e., uses). **This unaudited financial statement is provided as of June 30, 2024, with 75.0 percent of the fiscal year completed.**

This financial statement compares revenues recognized and encumbrances/expenditures made against the District’s FY2023-24 available budget of \$465.9 million. Encumbrances represent orders for goods and services which have not yet been received.

Revenues (Sources) Status:

- Overall, as of June 30, 2024, 81 percent of the District’s budgeted revenues/balances have been recognized.
- As of June 30, 2024, the District has received \$125,439,686 of ad valorem tax revenue representing 100 percent of the budget. This is in-line with the nine-months prior year collection rates of 100 percent for FY2022-23 and 100 percent for FY2021-22. The budget represents 96 percent of estimated proceeds based on the taxable property values as certified by the District’s sixteen counties multiplied by the Governing Board approved millage rate. Projections are based on historical collections.
- Intergovernmental Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. As of June 30, 2024, \$7,172,693 revenues have been recognized, representing 8 percent of the budget. From year to year, the budgeted amount of intergovernmental revenue compared to the recognized amount can fluctuate for various reasons: projects can be in the planning stages and have not incurred a significant amount of expenditures, or anticipated projects may be canceled (e.g., cooperative funding projects).
- The FY2023-24 interest earnings budget was based on a 2.27 percent expected rate of return. The District’s investment portfolio on June 30, 2024 is earning a weighted average yield of 4.18 percent. For the nine months ended June 30, 2024, the District has earned 3.14 percent yield on its investments. Interest earnings on invested funds in the amount of \$14,210,350 have been recognized representing 115 percent of the budgeted amount.
- License and Permit Fees consist of revenue from water use permits, environmental resource permits, water well construction permits, and water well construction licenses. Revenue recognized represents 77 percent of the budgeted amount as of June 30, 2024.
- As of June 30, 2024, other revenue earned 257 percent of the budgeted amount. Each year, items that fall within the “Other” revenue category are budgeted conservatively due to the uncertainty of the amounts to be collected. For example, revenues from timber sales, hog hunts, insurance recoveries and the sale of capital assets can vary significantly from year to year. The majority of the variance over budget is due to sales of capital assets in the amount of \$556,342 and various settlements in the amount of \$228,827.
