## **Introduction**

The Southwest Florida Water Management District (SWFWMD) Land Resources Department partnered with Marketing for Change, Inc. (M4C) to learn more about the opinions and attitudes of the District's residents regarding outdoor recreational opportunities in the service area.

The primary goal of this report is to examine the citizens' attitudes and current use of the District's land resources. The research should explain, and ultimately allow the District to alter, specific citizen behaviors that serve as the core reason why people either use the recreation resources or not. It is hoped that the data discussed within these pages will begin a dialogue about enhancing the recreational opportunities and experiences of SWFWMD customers.

This report will analyze the data collected through three survey outreach formats: telephone, online and mail. Since each data collection method is unique and reaches different types of people, the results will be compared to each other only and not combined into one overall sample.

## **Objectives**

Solid research is built on measurable objectives. Since this is the first survey of its kind done by the District, the objectives presented below will serve primarily as baseline measures. When appropriate, the results will be compared to previous market and District research.

During the collaborative work session between SWFWMD and M4C, the following list of research objectives was agreed upon:

- 1) Gauge the public's opinion of the Southwest Florida Water Management District.
- 2) Gauge the public's level of awareness regarding the District's land acquisition program.
- 3) Gauge the public's level of awareness regarding the District's reasons for acquiring lands.
- 4) Gauge the public's awareness of the District-owned land.
- 5) Gauge the public's level of participation in recreational opportunities on District lands.
- 6) Gauge the public's level of satisfaction after using the District lands for recreation.
- 7) Gauge the public's level of interest in additional recreational amenities to be considered.
- 8) Gauge the public's level of satisfaction with recreational opportunities available to them throughout Southwest Florida.
- 9) Identify ways people receive information about recreational opportunities.
- 10) Compare the general sample data to "heavy users" – those who participate in outdoor recreation activities often.

Results relating to each of these objectives will be presented in detail later in this document.

## Methodology

### Survey Design

Although three different instruments were used – telephone, online and mail, the general construction of the surveys remained the same for comparison purposes.

The survey questions can be segmented into six categories:

- 1) *Recreation Issue questions:* These questions gauged the extent or desired extent of engaging in a variety of recreation activities. Opportunities varied from watching television and going shopping to boating and going for a hike. Respondents were asked to rate if they did each activity “too much,” “the right amount,” “not enough” or “never/not applicable.” Since there is no general standard to defining the appropriate amount of time a person should spend on each recreation opportunity, we sought to compare their personal perceptions for each task.
- 2) *Norms:* There is much agreement in social marketing that people are more likely to adopt a behavior because they feel it is “normal.” These measures gauged respondents’ level of agreement on statements related to outdoor recreation and leisure activities. The results present a picture of what is common in the respondents’ lives.
- 3) *Participation in Outdoor Recreation:* M4C sought to gauge behaviors relating to the respondents’ participation in their favorite outdoor recreation activities. Behaviors such as planning, who are they likely to recreate with, information gathering about a recreation spot, likelihood to apply for a permit and frequency of participation were collected. Specifically, this line of questioning focused on the respondents’ “favorite outdoor activity.”
- 4) *Important Outdoor Recreation Features:* Respondents were asked to rate the importance of various recreation features they take into consideration when planning outdoor recreation. Data collected from will allow SWFWMD to possibly determine what is important for its customers and those actively engaging in the behaviors sought by the District.
- 5) *Awareness and Satisfaction of SWFWMD:* This research approach allows the District to gauge satisfaction and knowledge associated with their conservation land. In addition to satisfaction measures, a recall question – “**Can you name one conservation area managed by the District?**” was also collected.
- 6) *Demographics:* Segmentation variables such as age, sex, income, education, region within the District, employment and race were collected. These variables will allow comparisons to be made within the sample population. Cross-tabulations of each of these variables are available in the appendix of this document.

### Telephone Survey – General Population

A stratified random digit dialing approach was used to collect data from 600 respondents in 12 counties within the District’s service area. The telephone area codes called were randomly selected by a computer from a complete list of active residential exchanges across the 12 counties. In order to access listed and unlisted numbers, random digits were added to form a

complete telephone number. Only those numbers to households were used in the survey. Within each household, one adult (over 18 years old) was designated to be the respondent for the survey.

It is our best estimate that these results represent a +/- 4 percent margin of error at the 95 percent confidence level. In theory, in 19 cases out of 20, overall results based on such samples will differ by no more than four percentage points in either direction from what would have been obtained by seeking out all adults in the 12-county region.

The data collection for the telephone survey was conducted between April 2 and 19, 2007. Interviewers use CATI (computer-assisted telephone interview) technology to gather responses during 10 to 15 minute interviews.

The sample was stratified based on the parameters set-up in the scope of work from the District. Each of the three regions included approximately 200 respondents. The specific breakdown of the regions and percent of the total sample are presented below (Table 1).

<b>Regions of the District</b>	<b>Percent of Sample</b>
North District (Citrus, Hernando, Sumter, Marion)	35.50%
Central District (Hillsborough, Pasco, Pinellas, Polk)	32.33%
South District (Desoto, Hardee, Manatee, Sarasota)	32.17%

Table 1 – Regional Breakdown

Overall, the sample was similar to the Census estimates for race and sex in the counties selected. Age data was comparable to the District’s previous “Water Knowledge, Attitudes and Practices” survey. When we weighted the data based on the 2006 Census population estimates, the age data fell more in line with the population data of the area. When weighted data is used in this report, it will be explicitly labeled. Table 2 below shows the demographic breakdown for race, age and sex.

<b>Census Estimates for the Sampled Counties</b>			<b>Unweighted Statistics</b>	<b>Weighted Statistics</b>
Estimated Population	3,396,714	Percent	Percent	Percent
White/Caucasian	2,648,097	78%	84.78%	84.30%
Black/African American	295,692	9%	7.02%	7.50%
Native American	24,412	1%	0.67%	0.50%
Asian	69,790	2%	0.50%	0.20%
Hawaiian	3,290	0%	0.17%	0.10%
Hispanic/Latino	355,433	10%	6.86%	7.40%
18-29	524,646	15%	8.83%	9.60%
30-49	1,191,632	35%	25.67%	30.80%
50-64	807,916	24%	30.00%	28.20%
65 and over	872,520	26%	35.50%	31.40%
Male	1,616,023	48%	47.50%	45%
Female	1,750,769	52%	52.50%	55%

Table 2 – Census and Sample Comparisons

One-third of the sample was employed full-time (38.76 %) and another third was retired (37.08%). Nearly seventy percent (68.91%) had some college or more and over half (51.05%) had a household income of \$50,000 or more. Only a quarter of the sample (23.67%) had children living at home. The sample was also well established in their counties. Almost two-thirds (60.37%) had lived in their counties for ten or more years. Also, nine out of ten people (91.44%) lived there year-round.

The survey instrument and specific percentage breakdown (both unweighted and weighted) of the general population results can be found in the appendices of this report. This sample will be used to garner results for the objectives outlined earlier.

**Online Survey – “Heavy Users”**

A convenience sample of 111 respondents who had either used SWFWMD land for recreation purposes or were members of outdoor recreation groups were designated “Heavy Users.” This group will serve as a comparison for the general population. The “Heavy Users” were surveyed because of their known affinity for outdoor recreation. Since this group was not randomly sampled, the results garnered from this group cannot be generalized to an entire population.

The data collection for the online survey began on April 5, 2007 and will continue until the final report is produced. Respondents were invited to take the survey through e-mail and directed to the instrument link at <http://survey.m4change.com/recreation>. Once at the link, the participant was presented with questions similar to the telephone survey. Joomla programming software was used to build the electronic survey. Once participants completed the data collection, the software recorded the user’s Internet Protocol (IP) address – this ensured that a person did not repeat the survey. If duplicate IP addresses were found in the data file, both sets of responses were removed from the data collection. The online survey took approximately 10 minutes to complete. Demographic data for the “Heavy User” sample is in the table 3 and 4 below.

<b>Demographic Variable</b>	<b>Percents</b>
White	87.27%
Black	3.64%
Hispanic	6.36%
Other	2.73%
Male	66.67%
Female	33.33%
18-29	21.62%
30-49	42.34%
50-65	31.53%
>65	4.50%
High School Graduate	29.73%
Some College	25.23%
College Graduate	37.84%
Advanced Degree	7.21%

Table 3 – Heavy Users Demographic Breakdown

<b>Demographic Variable</b>	<b>Percents</b>
\$30,000-\$49,999	34.12%
\$50,000-\$74,999	34.12%
\$75,000+	31.76%
Employed Full-Time	61.26%
Employed Part-Time	35.14%
Voluntarily Not In Work Force	2.70%
Unemployed/Not Retired	0.90%

Table 4 – Heavy Users Demographic Breakdown

Overall, the “Heavy Users” were 30-49 year old, white male college graduates who were employed full-time. The complete percentage breakdown for this sample and the survey instrument are in the appendices of this report.

### **Mail Survey – SWFWMD Board Members**

A mail survey similar to the online and telephone survey was sent to the SWFWMD governing board members on April 15, 2007. Just as with the online survey, this is a convenience sample and will be used for comparison purposes only. Thirty surveys were returned to the M4C office for tabulation. Basic responses, without demographic information, will be included in the appendices of this report. Demographic information will not be included due to the small population of board members. Some demographic information may violate the anonymity guaranteed in the survey.

### **Statistical Analysis Procedures**

All data were analyzed using the Statistical Package for the Social Sciences (SPSS) computer program. Specifically, cross tabulation comparisons were tested for differences by using the Pearson Chi-Square test. Mean (average) differences were tested using an independent sample t-test (when comparing two groups) and one-way ANOVA (when comparing three or more groups). The statistical tests were conducted at the 95 percent confidence level ( $p < 0.05$ ). As stated earlier, in theory, the results garnered from the random sample would be similar 19 out of 20 times if the survey was replicated.

Statistical differences will be noted in the report when they occur. Reports of specific test statistics (t, F or Pearson Chi-Square) are available in the appendices of this document. This decision was made to enhance the readability of the overall report. If no statistical difference is found, the groups are assumed to be similar.

Statistical tests were only conducted on the general population (telephone survey). Because of the differences between the sampling methods used to gather respondents in each group, statistical comparisons between the probability sample (telephone survey) and convenience samples (online and mail surveys) would not be appropriate. Convenience samples will solely be used as comparison measures against the general population. Since the mail survey delivered so few responses, comparisons under each objective will be made with the web or “Heavy User” sample only.

## **Analysis of Research Objectives**

The bulk of this report will focus on directly analyzing the research objectives outlined by the District staff and M4C. All ancillary data (complete analysis of both unweighted and weighted percentages and cross tabulations of demographic segments) are presented in the appendices of this publication. In this section, the italicized objective will be presented and the data referring to it will follow. The numbers in each table represent percents.

### ***Objective One***

#### ***Gauge the public's opinion of the Southwest Florida Water Management District.***

Of the 55 percent of the people who had heard of the District, a little over a third of the respondents (35.66%) had a favorable opinion of SWFWMD (question 19e). The remaining segment of the respondents had either “never heard of” SWFWMD (27.17%) or had “no opinion” (17.50%). In comparison, 93.7 percent of heavy users gave the District a favorable rating.

When examining the demographic segments, women were more likely than men to not be aware of the District (33.65% as compared to 20% respectively, *statistically different*). Respondents in the southern region of the District were also more likely to either have a higher favorable opinion (35.75%) or not be aware of SWFWMD (31.09%) than the other two regions (*statistically different*). Finally, those who were aware of a District conservation land were more likely to rate the District more favorably than their counterparts (53.41% versus 45.92%, *statistically different*). This is an important finding to boost education and communication resources within the District – the more people know about you, the more they report liking you.

### ***Objective Two:***

#### ***Gauge the public's level of awareness regarding the District's land acquisition program.***

Overall, results showed that a little over a third of the respondents (37.17%) were aware of the SWFWMD land acquisition program. This objective was tested by asking question 20 on the telephone survey instrument.

When segmenting the data, all demographic variables were consistent with the overall population except for those who knew about SWFWMD conservation land (question 21). It was found that those who knew about the land were more likely to know about the land acquisition program (*statistically different*). This is an important piece of education information - not only do people report knowing that the District manages conservation land, they also report knowing about the acquisition program.

Table 5 below shows a graphical breakdown of the familiarity differences of these two groups.

	Aware of SWFWMD Land	Not Aware of Dist. Land
Very Familiar	16.67	2.76
Somewhat Familiar	42.53	16.59
Somewhat Unfamiliar	14.37	21.20
Very Unfamiliar	17.82	36.41
No Opinion	8.62	23.04

Table 5 – Aware of SWFWMD land and familiarity with the land acquisition program

### ***Objective Three***

***Gauge the public’s level of awareness regarding the District’s reasons for acquiring lands.***

During the survey, the interviewer read the following passage to the respondents, **“The primary mission of the Southwest Florida Water Management District is to protect the water resources of the region. Consistent with the mission to protecting the water resources of the area, the District accommodates over 2 million visitors a year to the over 325,000 acres of public conservation lands it manages.”** This was to quickly prompt them on the mission of the District.

After a few questions about recreation use on SWFWMD land, respondents were asked to state which of the following two statements best supported their opinion about the District (question 25):

- I believe the Southwest Florida Water Management District should acquire conservation lands and make them available to the public for recreational use. This use of public land allows the citizens to witness first hand the natural beauty of Florida.
- I believe the Southwest Florida Water Management District should acquire conservation lands and restrict the public from accessing them. By restricting access, the District ensures the preservation of Florida’s natural lands.

The responses were alternated during every interview to prevent participants from simply picking the first or last selection. Overall, nearly three quarters (71.47%) of the respondents supported the statement allowing the lands to be used by the public. After segmenting the data by demographic variables, consistency with the overall percents was found in all of the variables except “Sex” (*statistically different*). While the majority of all respondents favored open access, women favored it less than men (65.19% compared to 76.35%).

When “heavy users” were asked about their opinion on land acquisition, 100 percent reported that it should be made available to the public. The online survey consisted of a follow-up question to the original – Why do you feel this way? “Taxpayer and citizens’ rights” was cited by 58 percent of the respondents while 28 percent mentioned that people using the land would help to conserve it.

These responses give possible direction to the future education and marketing efforts of the District – messaging should link the public use of the land to the overall water protection goals of SWFWMD. Specifically tell why land preservation protects drinking water.

***Objective Four***  
***Gauge the public’s awareness of the District-owned land.***

Awareness was gauged by simply asking respondents if they were aware of a tract of land (question 21) and if they were, could they name an area managed by the District (question 21a). Overall, 43 percent of the general population respondents were aware of the land and of those who were aware, a little over half (54.88%) could correctly name a location. In comparison, three fourths of heavy users (77.48%) were aware of the land; those who were aware, three quarters (76.74%) could correctly name a location.

The general population named the Alafia River Corridor and Withlacoochee River Park equally (both 6.71%) while the heavy users named the Starkey Wilderness most (10.47%). When looking at demographic segments, there was a difference in the employment categories. Those employed fulltime and unemployed/not retired were the most aware of the lands (50.9% and 50% respectively, *statistically different*).

***Objective Five***  
***Gauge the public’s level of participation in recreational opportunities on District lands.***

A little over a third of the general population (38.55%) had used the District’s lands for recreational purposes (question 22). Those who did use it, reported “hiking” as the most popular activity (9.64%). When comparing to heavy users, 87.21 percent reported using the land for recreation. Hiking was also the most popular with this group (56%). Segmentation found that there was no statistical difference between each demographic variable and the overall general population.

<b>22-Have you ever used any of the southwest Florida management district land for outdoor recreation purposes? If yes, what was the last outdoor activity you participated in on the district's land?</b>	<b>General Sample</b>	<b>Heavy Users</b>
No	61.45	
Hiking/Taking A Walk	9.64	56.00
Boating	7.83	4.00
Fishing	6.63	
Camping	3.61	29.33
Other	3.01	6.67
Horse-Back Riding	2.41	
Hunting	1.81	
Bicycling	1.20	
Bird Watching	1.20	
Diving/Tubing	0.60	
Canoeing	0.60	4.00

Table 6 – Participation in recreational opportunities on District land (last activity)  
*Please note, Table 6 only features those who have used District land.*

**Objective Six**

***Gauge the public’s level of satisfaction after using the District lands for recreation.***

The general sample that have used District lands, reported an average satisfaction score (question 23) of 7.65 out of 10 compared to the 8.16 out of 10 scored by the heavy user. When segmenting the population by demographics, there was a statistical difference between the races. The “Other” category rated the highest at 8.5, while White/Caucasian respondents rated an average of 8. African-Americans rated the lowest of the races with an average of 2 out of 10.

There was a consistency between the overall percents and the demographic segments when it came to naming the most important deciding factor for using SWFWMD lands for recreation (question 24). Table 7 breaks down the unprompted responses of the general sample and Table 8 shows the responses of the heavy users.

---

**What was the most important deciding factor to use SWFWMD land for your outdoor activity? (General Population)**

---

Location/Access	38.98
Other	15.25
Preservation/Wildlife	13.56
Just To See It	11.86
Safe And Clean	10.17
Range Of Activities	3.39
Free	3.39
The Manatee	1.69
Good Fishing	1.69

---

Table 7 – Factors that draw general population to SWFWMD land.

---

**What was the most important deciding factor to use SWFWMD land for your outdoor activity? (Heavy Users)**

---

Location/Access	54.67
Familiarity	20.00
Free	14.67
Natural Beauty	10.67

---

Table 8 – Factors that draw heavy users to SWFWMD land.

The District should use this insight to communicate the various “close” locations of the property to the people of the region. According to this data, when people realize how accessible the land is to their home, the more likely they will use it for recreation. This simple communication tactic breaks down the mental barrier that it is difficult to “find” recreational opportunities in the citizens’ area.

**Objective Seven**

***Gauge the public’s level of interest in additional recreational amenities to be considered.***

Respondents were asked to rate a series of thirteen amenities or features they consider when planning outdoor activities (question 17). Table 9 outlines the ratings of importance given by the general sample and heavy users.

<b>Recreational Amenities Importance Ratings (1-10)</b>	<b>General Sample</b>	<b>Heavy Users</b>
17a-Bicycle Trails	4.48	7.67
17b-Access Facilities For The Physically Challenged	5.80	3.23
17c-Remote Campsites Only Accessible By Trails Or Water Bodies	3.39	7.47
17d-Full-Service Camping Areas With Water And Electricity	5.25	6.28
17e-Hiking Trails	5.33	9.11
17f-Restrooms	8.13	4.04
17g-All Terrain Vehicle [ATV] Trails	2.94	2.74
17h-24-Hour Security	6.82	2.75
17i-Bird Watching Areas	4.74	4.28
17j-Horse Trails	3.93	4.52
17k-Designated Campsites For Recreational Vehicles [RVS]	4.53	3.18
17l-Geocaching Locations - Scavenger Hunts Using Global Positioning Devices	2.71	1.90
17m-Staff On Site, Like A Park Ranger Or Information Desk	6.80	4.09

Table 9 – Importance ratings of various outdoor recreation features

When examining the population segments, there were several instances of disagreement between the various groups. Only amenities that are statistically different will be shown on the following tables broken down by demographic variables.

<b>Recreational Amenities Importance Ratings (1-10)</b>	<b>Men</b>	<b>Women</b>
17d-Full-Service Camping Areas With Water And Electricity	4.90	5.59
17f-Restrooms	7.57	8.67
17h-24-Hour Security	6.20	7.42
17i-Bird Watching Areas	4.34	5.11
17k-Designated Campsites For Recreational Vehicles [RVS]	4.17	4.87
17m-Staff On Site, Like A Park Ranger Or Information Desk	6.33	7.26

Table 10 – Importance ratings of various outdoor recreation features – Men vs. Women

<b>Recreational Amenities Importance Ratings (1-10)</b>	<b>18-29</b>	<b>30 -49</b>	<b>50-65</b>	<b>&gt;65</b>
17b-Access Facilities For The Physically Challenged	6.32	5.64	6.48	5.20
17c-Remote Campsites Only Accessible By Trails Or Water Bodies	4.50	3.74	3.81	2.47
17d-Full-Service Camping Areas With Water And Electricity	6.30	5.97	5.59	4.15
17e-Hiking Trails	5.91	5.66	5.69	4.61
17g-All Terrain Vehicle [ATV] Trails	4.86	3.33	2.70	2.34
17i-Bird Watching Areas	3.98	4.73	5.40	4.36

Table 14 – Importance ratings of various outdoor recreation features – Regions

<b>Recreational Amenities Importance Ratings (1-10)</b>	<b>Used</b>	<b>Never Used</b>
17a-Bicycle Trails	5.18	4.01
17c-Remote Campsites Only Accessible By Trails Or Water Bodies	4.24	3.05
17d-Full-Service Camping Areas With Water And Electricity	5.89	4.75
17e-Hiking Trails	6.50	5.16
17f-Restrooms	8.65	7.67
17j-Horse Trails	4.82	3.75

Table 15 – Importance ratings of various outdoor recreation features – Used SWFWMD land

It is the recommendation of M4C that SWFWMD further explore these attributes since there was so much disparity between groups. We believe that the most telling group of comparisons is

between those who have used your lands and those who have not. The main implication from these results is that no one amenity will satisfy everyone.

***Objective Eight***

***Gauge the public’s level of satisfaction with recreational opportunities available to them throughout Southwest Florida.***

Overall, nearly nine out of 10 people (89%) agreed that the region was a great place for outdoor recreation (question 7). All of the heavy user respondents agreed with the statement. The comparisons of the demographic segments mirrored the overall population response.

Since participants overwhelmingly believe the area is a great place for recreation, the District should focus on its offerings in Southwest Florida through education and marketing efforts. The opportunity here is to position SWFWMD as a leader in outdoor recreation in the region, specifically when referring to hiking, fishing, boating and camping.

***Objective Nine***

***Identify ways people receive information about recreational opportunities.***

Respondents were asked how they received information about recreational opportunities, specifically places to participate in outdoor recreation (question 16). Over half (51.52%) of the general population respondents stated they used “word of mouth”; 95.5 percent of heavy users reported “word of mouth” was how they got their information. These results likely inform us that if a person likes an area, he or she is likely to pass the information on to a peer.

The demographic segments were consistent with the overall data. Table 16 shows the comparison between the general population and the heavy user samples.

<b>Genera</b>	<b>l Population</b>	<b>Heavy Users</b>
Word Of Mouth	51.52	95.5

Table 16 – Popular information sources for recreation opportunities

The follow-up to this result is to actually get citizens out to the conservation lands. So far, the results show evidence that if the District gets a person to use their land, he or she is likely to have a high opinion of it and will probably talk about the recreation experience with his or her friends and family.

### ***Objective Ten***

***Compare the general sample data to “heavy users” to gauge norms and other differences between the samples.***

As stated earlier, people tend to behave in ways that seem “normal” to them. For this reason, we tried to uncover those links between what people consider a norm in their life and the behaviors desired by SWFWMD. For this objective, we will concentrate on the norms between the general population and the heavy user as well as the segments of those who are aware of and have used SWFWMD lands in the past. Other demographic comparisons can be made by looking at the cross tabulation report in the appendices of the final document.

Respondents were asked about their friends’ outdoor recreation behavior (question 4). It is a well researched theory that we build relationships with people who are like ourselves, therefore asking about friends is inadvertently getting information about the individual’s likely behavior. Nearly twice as many heavy users (67.57%) disagreed with the statement that they had “very few” friends who participated in outdoor activities than their counterparts, the general population (35.33%). Those who had used SWFWMD lands before also disagreed more with the statement compared to those who had not used the land (43.75% and 36.28% respectively).

When responding to the statement, “It is difficult to find a good hiking trail near my home (question 5),” more heavy users (66.67%) again disagreed with the statement compared to 43.67 percent of the general sample. There was another statistical difference between those who had used SWFWMD lands and those who had not (67.19% disagreement versus 44.12%). This time, there was also a statistical difference between those who were aware of SWFWMD lands and those who were not (53.41% disagreement versus 43.78%). The knowledge of SWFWMD seemed to transfer into being able to find a hiking trail close to home.

Revisiting the theory of being like your friends, we asked for levels of agreement for the statement, “I know a lot of people who like to go camping (question 6).” Heavy users agreed at a rate double that of the general population (98.20% versus 47.17%). The same pattern transferred to those who had used SWFWMD lands before and those who did not (73.44% versus 39.22). There was no difference in segmenting awareness about SWFWMD.

Finally, we asked a statement that was in line with SWFWMD’s mission of preserving state lands. Respondents were asked their level of agreement on the following statement, “Government agencies should spend more money preserving natural lands (question 8).” This time, there was no statistical difference for those who had used SWFWMD lands before and those who had not. There was however a statistical difference in those who were aware of SWFWMD lands and those who were not (88.64% versus 80.69%, *statistically different*). Heavy users again agreed more than the general sample (95.5% versus 85.33%).

When looking at participants’ favorite outdoor activity (question 10), those in the general sample responded with more variety than the heavy user sample. This could be explained by the selection of the heavy user respondents – they were recruited from organizations like equestrian clubs, boating clubs, scouting and bicycle groups. Table 17 outlines the variety of activities chosen.

<b>What would you consider your favorite outdoor recreational activity?</b>		
<b>General</b>	<b>Sample</b>	<b>Heavy Users</b>
Hiking/taking a walk	18.57	15.32
Outdoor sports related (tennis, golf, car racing, etc.)	13.63	
None/don't participate	13.46	
Boating	11.07	22.52
Swimming/beach	11.07	9.01
Fishing	8.69	
Other activities that could be done on SWFWMD land (playing with pets, horseshoes, waterskiing, etc.)	8.52	
Bicycling	6.13	8.11
Camping	3.75	14.41
Horse-back riding	1.87	18.02
Hunting	1.7	12.61
Bird watching	0.68	
Riding dirt bikes/ATVs	0.68	
Going to the zoo	0.17	

Table 17 – Favorite outdoor activity

We also wanted to find out if there was a difference in who accompanied respondents while participating in outdoor recreation (question 12). We found there were no statistical differences between awareness and land use, but it did seem that heavy users preferred participating with their families while the general population preferred their friends. Table 18 shows the accompaniment differences between the two groups.

<b>Last time you did this activity, did anyone accompany you?</b>		
	<b>General Sample</b>	<b>Heavy Users</b>
Friends	25.44	13.51
Spouse	23.67	12.61
No/Went Alone	19.53	18.92
Combination/Family/Friends	17.36	16.22
Entire Family	12.62	38.74
Children Only	1.38	

Table 18 – Who accompanied the respondents last in their outdoor activity

When doing research that will eventually become a social marketing or educational campaign, M4C looks for explicit descriptions of why people partake in a behavior and the barriers they face when trying to do a desired act. To uncover this, we simply asked what they enjoyed most

about outdoor recreation (question 13) and what made participation difficult (question 14). Table 19 shows the responses to the enjoyment question while Table 20 looks at the barriers. Again, the general sample gave several different answers while the heavy users seemed to gravitate to the same few responses.

<b>What do you enjoy most about participating in that activity?</b>		
	<b>General Sample</b>	<b>Heavy Users</b>
Simply Being Outdoors	46.48	67.01
Spending Time W/Family	12.47	15.46
Peaceful Setting	11.67	
Enjoy Wildlife/Nature	9.86	
Exercise	5.43	
Other	4.43	3.09
Escape City/Surroundings	2.21	
Sports Competition	2.01	
Being With Friends	1.61	
Low Cost Recreation	1.41	
Relaxing	1.41	14.43
Meeting People	1.01	

Table 19 – What participants enjoy about outdoor recreation

<b>What makes it difficult for you to participate in that activity?</b>		
	<b>General Sample</b>	<b>Heavy Users</b>
There Are No Drawbacks	26.37	33.71
Time Commitment	24.34	56.18
Weather	12.17	
Other	9.74	
Working/Job	4.87	
Health Issues	4.46	
Age	3.65	
Limited Facilities/Areas	3.45	
Location	2.64	
Cost	2.23	
Bugs	1.42	
Gas Prices	1.22	
Disability	1.01	
Family Does Not Enjoy Activity	0.81	10.11
Too Few Boat Ramps	0.81	
Transportation	0.41	
Babysitter	0.41	

Table 20 – What participants see as barriers to outdoor recreation

In addition to the barriers and benefits, we wanted to see if there was a difference in planning behaviors when considering participating in outdoor recreation (question 15). There were no

statistical differences in the awareness and use categories. Just as before, the heavy user sample seemed to coalesce around a few answers. While the general sample leaned more toward spur of the moment planning, the heavy user group was willing to take more time for plans. Table 21 shows the planning breakdown.

<b>On average, how much planning time goes into deciding to participate in your favorite outdoor activity?</b>		
	<b>General Sample</b>	<b>Heavy Users</b>
Usually Spur Of The Moment	63.24	32.43
Plan/Few Days In Advance	21.77	36.94
Plan/A Week In Advance	8.42	30.63
Plan/Month In Advance	3.7	
More Than A Month/Advance	2.87	

Table 21 – Planning behavior

We also wanted to examine the likelihood of applying for a permit to use SWFWMD lands for recreation. According to the SWFWMD website, citizens who want to use the lands for recreation purposes like campaign have to apply for a permit before use. Table 22 examines this issue by awareness, past use and heavy users.

<b>How likely are you to apply for a permit to use public lands for outdoor recreational activities?</b>						
	<b>Aware</b>	<b>Not Aware</b>	<b>Used</b>	<b>Never Used</b>	<b>General Population</b>	<b>Heavy Users</b>
Very Likely	21.43	10.82	24.59	17.65	15.54	20.72
Somewhat Likely	25.32	23.71	36.07	16.47	23.51	26.13
Somewhat Unlikely	17.53	11.86	16.39	18.82	14.34	25.23
Very Unlikely	35.71	53.61	22.95	47.06	46.61	27.93

Table 22 – Likelihood of applying for a permit to use public lands for recreation (question 18)

There are statistical differences between those who are aware of SWFWMD land and those who are not, as well as those who have used the lands before and those who haven't. In addition, heavy users were more likely to apply than the general sample. It seems that knowledge of the permit system and avid outdoor recreation participation are the driving forces for likelihood to apply for a permit.

To close out this objective, we wanted to better examine the differences between the self reports of frequency of a variety of recreational behaviors by comparing the general sample with the heavy users. Further demographic segment comparisons for these behaviors can be found in the appendices of the final report. We encourage you to examine the comparisons of self reported recreation behavior frequency between the general sample and the heavy users. As stated in the methodology section, there are no general standards to defining the appropriate amount of time a person should spend on each recreation opportunity (question 3a-i on the telephone instrument). We sought to compare their personal perceptions for each task to give us likelihood information on adopting the behaviors beneficial to the recreation division of the District. Overall, respondents felt like they were not getting out enough, especially for activities like camping, hiking and boating.

## Demographic Segmentation Statements

This section is presented as a “digested” version of the data presented as statements to guide possible social marketing and education campaigns. The data from the random sample telephone survey were used to formulate these statements. Each section corresponds to a demographic variable collected. To see the specific data associated with each statement, view the cross tabulation report in the appendices of this document. These statements are presented without corresponding data – much like they would be used during a messaging campaign.

### Sex

- Taking a Hike & Boating: Women were more likely to answer “never/not applicable” than men.
- More women believed that the government should spend more money preserving public lands.
- Women tended to do outdoor activities with a spouse while men tended to go with friends.
- Women wanted these amenities more than men: full-service camping areas (water and electricity), restrooms, 24-hour security, bird watching areas, RV campsites and staff on site.
- More women than men were not aware of SWFWMD.
- While both favored land access to the public, men supported this option more than women.

### Age

- Taking a Hike, Boating and Camping: Over 65 stated “never/not applicable” more than any other group. All other age groups reported “not often enough” as the most popular answer.
- Those between 30 to 65 years agreed the most with the statement, “I know a lot of people who like to go camping.”
- The older the age group, the more they agreed with the statement, “Using government monies on land preservation is very popular in Florida.”
- Those 18-29 were more likely to do their selected outdoor activity with a mixed group of family and friends. Those older than 65 were more likely to go alone or with friends.
- Access to facilities for the physically challenged was important for 18-29 and 50-65 year olds.
- The younger the age group, the higher the rating for remote campsites, full-service campsites, ATV trails and geocaching locations.
- Those over 65 rated RV campsites, hiking and horse trails the lowest of each age group.
- Bird watching areas and staff on site were rated highest by 50-65 year olds.
- Those 30-49 were the most likely to apply for a permit to use public lands.

## **Race**

- Hispanics agreed the most with the statement, “Very few of my friends regularly do outdoor activities like hiking, camping or boating.” African-Americans disagreed the most with the statement – meaning they have more friends who like these activities.
- Access to facilities for the physically challenged was important for African-Americans
- ATV trails was important for Hispanics.
- RV campsites were rated highest by African-Americans and the “Other” category of race.
- African-Americans rated their overall experience on SWFWMD lands the lowest of the ethnic groups. Hispanics closely followed.

## **Employment**

- Those voluntarily out of the workforce reported not boating enough. They were closely followed by retirees.
- Those out of the workforce (voluntarily, unemployed and retired) agreed the most with the statement, “Very few of my friends regularly do outdoor activities like hiking, camping or boating.”
- Those employed fulltime agreed most with the statement, “I know a lot of people who like to go camping.”
- Agreement on the statement, “Using government monies on land preservation is very popular in Florida” was consistent with every group except the unemployed/not retired.
- Retirees were more likely to do activities alone or with friends than all the other groups. Those unemployed/not retired were more likely to go with their spouses. Fulltime employees and those voluntarily out of the workforce selected a combination of friends and family as the most popular choice.
- Bicycle, hiking and horse trails were the most important to those working part-time.
- Remote campsites and full-service campsites were most important to fulltime employees.
- Staff on site, ATV trails and geocaching sites were most important to the unemployed/not retired.
- Those employed fulltime were more likely to be aware of SWFWMD land. Part-time employees were the least aware.

## **Education**

- Those with less than a high school education rated access to facilities for the physically challenged, remote campsites, full-service campsites, RV campsites, ATV trails and geocaching locations higher than all of the other groups.

**Region - North District (Citrus, Hernando, Sumter, Marion); Central District (Hillsborough, Pasco, Pinellas, Polk); South District (Desoto, Hardee, Manatee, Sarasota)**

- Those in south district reported boating, hiking and camping as “never/not applicable” more than the other two regions.
- Central district respondents agreed the most with the statement, “It is difficult to find a good hiking trail near my home.”
- North district respondent agreed the most with the statement, “I know a lot of people who like to go camping.”
- North district respondents reported participating in their designated outdoor activity the most during the last three months.
- When looking at accompaniment, those in the north district preferred going with spouses, central district with a combination of family and friends and south district with friends.
- Bicycle trails and staff on site were rated most important by central district respondents.
- Full-service camping and horse trails were rated most important by north district respondents.
- When asking the opinion of SWFWMD, those in the central district rated the most favorable followed by the south district. The north district respondents had the highest percentage of unfavorable ratings. The south district respondents were most unaware.

**Participate in Outdoor Activities**

- Those who participated in outdoor activities agreed most to the statement, ““I know a lot of people who like to go camping” and disagreed most with the statement, “Very few of my friends regularly do outdoor activities like hiking, camping or boating.”
- The central district had the most respondents reporting the do not participate in outdoor activities while the north district reported the most who participated.

**Planning Activities**

- There was no statistical difference in the type of planning activity and likelihood of applying for a permit – all overwhelmingly stated that they were very unlikely to do so.
- Those who plan spur of the moment did the most activities during the past three months.
- “Facilities for the physically challenged” was rated most important by those who plan a month or more in advance.

**Aware of SWFWMD Conservation Land (question 21)**

- Those **not** aware of SWFWMD wanted to boat more – highest rating of “not often enough”
- Those **not** aware of SWFWMD reported that it was difficult to find a good hiking trail near their home.
- Those who **were** aware of SWFWMD agreed more to the statement, “Government agencies should spend more money preserving natural lands.”

- Those who were aware of SWFWMD were more likely to apply for a permit to use public lands.

### **Used SWFWMD Land**

- Those who have never used SWFWMD lands reported not going for a hike often enough more than their counterparts.
- Those who have never used SWFWMD lands agreed more with the statements, “Very few of my friends regularly do outdoor activities like hiking, camping or boating” and “It is difficult to find a good hiking trail near my home.”
- Those who have used SWFWMD lands disagreed most with the statement, “It is difficult to find a good hiking trail near my home.” This group agreed more that they knew a lot of people who like to go camping.
- Those who have used the lands rated every attribute except “staff on site” as being more important than their counterparts. “Staff on site” was rated slightly higher (one one-hundredth of a point) by those who had not used the land.
- Those who had used the lands before were also more likely to apply for a permit.

### **Similar Themes in Past Research**

While this research was specifically done to be the foundation of a number of social marketing and educational campaigns, M4C staff found similar themes in past government “attitude awareness” surveys of the Florida National Scenic Trails (FNST) and USDA Forest Service.

Please note that while these two surveys ask similar questions, they do not cover the breadth of information that the District’s survey covered. The results presented in the previous pages of this report represent a cutting edge approach to social marketing from an environmental, recreational and land resources point of view. M4C was unable to find any other government survey research that had the same goals as this project. The District and its Board of Directors should be proud of the proactive nature of this research.

Below are the major highlights from the previous attitude or “customer service” surveys in bullet forms. Similarities to the District’s survey will be included with each bullet.

#### ***Florida National Scenic Trail (FNST) Visitor Assessment (2005-2006 annual report)***

### **Hiking and Visiting the Trail**

- Respondents’ primary reason for visiting the trail on that day was Hiking/walking (63.3%). In the District’s survey, both the general sample and the heavy users reported hiking to be the top reason people used the District’s lands.
- Participants tended to hike alone (29.3%) or in a pair (33.9%). When traveling in a pair, it tended to be with a family member (36%) or friend (11.7%). The District’s survey found similar results. Most of the general sample liked to recreate with friends while the heavy users liked to participate in recreational activities with their families.

- Sixty-one percent of those traveling alone tended to be male. The District’s survey found that more males tended to recreate more with friends while females tended to recreate more with their spouse.
- The largest group of hikers was made up of individuals 40-49 years of age (26.9%). In the District’s survey, the largest percentage of hikers came from the 50-65 year old category.
- Respondents tended to be more male than female. Males made up the majority of the respondents (64%). The District’s survey mirrored the Census data in terms of sex. Males accounted for 47.5 percent of the sample (the Census estimate for males in the area is 48 percent).
- The majority of respondents stated that their biggest motivator to visit the FNST was to “enjoy nature.” This was similar to the top answer (“being outdoors”) in the Districts survey – 46 percent of the general sample reported this answer.

### **Awareness of FNST**

- Ninety-eight percent of respondents reported knowing that Florida has a National Scenic Trail. Only 37 percent reported knowing about the District’s land acquisition program. Forty-three percent reported being aware of a parcel of District recreation land.
- Half of the respondents reported “Friends/family” as the primary source of learning about FNST. While we did not ask specifically about how people heard about the District, we did ask how they heard about recreation opportunities in their area. The number one response was “word of mouth” (52% responded this way).

### ***USDA Forest Service Region 8 (2000)***

*(Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, N. Carolina, Puerto Rico, Virgin Islands, S. Carolina, Tennessee, Texas, Virginia)*

### **Overall Findings**

- More males visited National Forests in Florida than females (Males – 69% vs. Females – 31%). While the Forest Service used actual “visit” data – they counted people who checked in at the ranger station, the District only relied on self reports. Forty percent of males and 37 percent of females reported using the District’s land for recreational purposes.
- More 31-40 year olds tended to visit National Forests in Florida compared to other age groups. In the District’s survey, more 30 to 49 year olds reported using the District’s land.
- The majority of visitors to National Forests in Florida were White (87.5%). Caucasians were the largest District user group in the SWFWMD survey.
- The top four recreation activities for visitors to the National Forests were viewing wildlife and natural features; fishing; general relaxation; and driving for pleasure. In the District’s survey, the top four recreation activities on District lands were hiking, boating, fishing and camping.

# Appendices

**Telephone Survey Instrument**  
**Southwest Florida Water management District**  
**Public Land Use Survey**

**Introduction:** Hello, I am \_\_\_\_\_ calling you from M4Research. We are conducting a short public opinion poll about the public lands and outdoor recreation opportunities in your area. Let me assure you that we are not selling anything and this will only take a few minutes. This phone number was randomly selected by a computer. All of the answers given today will remain anonymous.

**Screening Questions:**

**1. Is this a home or a business?**

- 1) Home (Continue)
- 2) Business (Terminate)
- 3) DK/Refuse (Terminate)

**2. Are you over the age of 18?**

- 1) Yes (Continue)
- 2) No (Terminate)
- 3) DK/Refuse (Terminate)

**Issue Questions:**

3. I am going to read you a series of leisure and recreational activities. After each one, please tell me whether you find yourself doing this TOO OFTEN, ABOUT THE RIGHT AMOUNT or NOT OFTEN ENOUGH.

Q#	Activity (Mix and Rotate)	Too Often	Right Amount	Not enough	NA/D K
3 a)	Going to the movies	1	2	3	99
3 b)	Going out to dinner	1	2	3	99
3 c)	Going for a hike	1	2	3	99
3 d)	Boating	1	2	3	99
3 e)	Camping outdoors	1	2	3	99
3 f)	Attending sporting events	1	2	3	99
3 g)	Watching television	1	2	3	99
3 h)	Shopping	1	2	3	99
3 i )	Going to amusement parks	1	2	3	99

I am going to read to you a set of statements about outdoor activities. Please tell me how much you agree with each statement. Tell me whether you STRONGLY AGREE, SOMEWHAT AGREE, SOMEWHAT DISAGREE or STRONGLY DISAGREE.

Q#	Statement (Mix and Rotate)	SA	A	D	SD	NA/DK
4.	Very few of my friends regularly do outdoor activities like hiking, camping or boating.	1	2	3	4	99
5.	It is difficult to find a good hiking trail near my home.	1	2	3	4	99
6.	I know a lot of people who like to go camping.	1	2	3	4	99
7.	This region of the state – Southwest Florida – is a great place for outdoor recreation.	1	2	3	4	99
8.	Government agencies should spend more money preserving natural lands	1	2	3	4	99
9.	Using government monies on land preservation is very popular in Florida	1	2	3	4	99

I'm now going to ask you some questions about your participation in outdoor recreational activities away from your home. These activities should be something other than attending or playing an outdoor sporting event, going to a playground or doing activities in your own neighborhood.

**10. What would you consider your favorite outdoor recreational activity? (Do not prompt)**

- 1) Camping
- 2) Horse-back riding
- 3) Boating
- 4) Bicycling
- 5) Hiking/taking a walk
- 6) Fishing
- 7) Bird watching
- 8) Hunting
- 9) Other: \_\_\_\_\_ (record actual)
- 10) Don't participate in outdoor activities (**Skip to Question 19**)
- 11) DK/Refuse (**Skip to Question 19**)

**11. How many times in the last three months did you participate in that activity? (Record actual number)**

**12. Last time you did this activity, did anyone accompany you?**

- 1) No, went alone
- 2) Spouse
- 3) Children only
- 4) Entire family (spouse, children, other family members)
- 5) Friends
- 6) A combination of family and friends
- 7) DK/Refuse

**13. What do you enjoy most about of participating in that activity? (Do not prompt)**

- 1) Simply enjoys being outdoors
- 2) Spending time with family
- 3) Escape the city/everyday surroundings
- 4) Peaceful setting
- 5) Enjoy wildlife/nature
- 6) No/Low cost recreation opportunity
- 7) Don't like participating in outdoor activities at all
- 8) Other: \_\_\_\_\_ (record actual)
- 9) DK/Refuse

**14. What makes it difficult for you to participate in that activity? (Do not prompt)**

- 1) There are no drawbacks
- 2) Bugs
- 3) Time commitment
- 4) Wild animals/Wildlife
- 5) Limited facilities/areas
- 6) Weather
- 7) Family doesn't enjoy the outdoors or the activity
- 8) Other: \_\_\_\_\_ (record actual)
- 9) DK/Refuse

15. **On average, how much planning time goes into deciding to participate in your favorite outdoor activity?**

- 1) My outdoor/nature plans are usually spur of the moment
- 2) Usually plan a few days in advance
- 3) Usually plan a week in advance
- 4) Usually plan a month in advance
- 5) Usually plan more than a month in advance
- 6) DK/Refuse

16. **Think about the last PLACE you participated in a recreational outdoor activity other than your home. How did you get information about that PLACE?**

- 1) Word-of-mouth
- 2) Internet
- 3) Newspaper
- 4) Magazine ad
- 5) Road sign
- 6) State Park guide
- 7) Other \_\_\_\_\_
- 8) DK/Refuse

17. **Please rate how important the following features are to you when you plan outdoor activities? One is “not at all important to me” and 10 is “very important to me.” (record number)**

Q#	Outdoor Feature (Mix and Rotate)	Rating
17 a)	Bicycle Trails	
17 b)	Access facilities for the physically challenged	
17 c)	Remote campsites only accessible by trails or water bodies	
17 d)	Full-service camping areas with water and electricity	
17 e)	Hiking Trails	
17 f)	Restrooms	
17 g)	All Terrain Vehicle (ATV) Trails	
17 h)	24-hour Security	
17 i)	Bird Watching Areas	
17 j)	Horse Trails	
17 k)	Designated Campsites for Recreational Vehicles (RVs)	
17 l)	Geocaching (Geo-Caching) locations – Scavenger hunts using Global Positioning Devices	
17 m)	Staff on site, like a park ranger or information desk	

18. **How likely are you to apply for a permit to use public lands for outdoor recreational activities?**

- 1) Very Likely
- 2) Somewhat Likely
- 3) Somewhat Unlikely
- 4) Very Unlikely
- 5) DK/Refuse

**19. I'm going to read a list of organization names. Please tell me if you have a favorable or unfavorable opinion of each organization. If you have no opinion or have never heard of the organization, just say so. Please respond Very Favorable, Somewhat Favorable, No Opinion, Somewhat Unfavorable, Very Unfavorable, or Never Heard of.**

Q#	Very Favorable	Somewhat Favorable	Somewhat Unfavorable	Very Unfavorable	No Opinion	Never Heard of
19. a) The Florida Park Service						
19. b) The Florida Fish and Wildlife Conservation Commission						
19. c) The National Park Service						
19. d) Your County's Parks and Recreation Service						
19. e) The Southwest Florida Water Management District, often referred to as "Swift Mud"*						<b>*Skip to Question 26</b>

**Now, I'd now like to talk to you more about the Southwest Florida Water Management District.**

**20. How familiar are you with the Land Acquisition and Management Program of the Southwest Florida Water Management District?**

- 1) Very Familiar
- 2) Somewhat Familiar
- 3) Somewhat Unfamiliar
- 4) Very Unfamiliar
- 5) Never Heard of the Program
- 6) DK/Refuse

**The primary mission of the Southwest Florida Water Management District is to protect the water resources of the region. Consistent with the mission to protecting the water resources of the area, the District accommodates over 2 million visitors a year to the over 325,000 acres of public conservation lands it manages.**

**21. Are you aware of any Southwest Florida Water Management District conservation land?**

1) Yes (21a. Probe: Can you name one conservation area managed by the District?)

- 1) No, cannot specifically name one
- 2) Alafia River Corridor (Hillsborough County)
- 3) Alafia River Reserve (Polk County)
- 4) Annutteliga Hammock (Hernando County)
- 5) Brooker Creek Headwaters Nature Preserve (Hillsborough County)
- 6) Brooker Creek Preserve (Pinellas County)
- 7) Canal Park and Lake Tarpon Outfall Canal (Pinellas County)
- 8) Charlotte Harbor Preserve State Park (Charlotte County)
- 9) Chassahowitzka River and Coastal Swamp (Citrus County)
- 10) Circle B Bar Reserve (Polk County)
- 11) Cliff Stephens Park (Pinellas County)
- 12) Cypress Creek (Pasco County)
- 13) Deep Creek (DeSoto County)
- 14) Edward Chance Reserve — Coker Prairie Tract (Manatee County)
- 15) Edward Chance Reserve — Gilley Creek Tract (Manatee County)
- 16) Edward Medard Park and Reservoir (Hillsborough County)
- 17) Flying Eagle (Citrus County)
- 18) Green Swamp Wilderness Preserve (Lake, Polk, Sumter Counties)
- 19) East Tract (Lake County)

- 20) Little Withlacoochee Tract (Lake County)
  - 21) West Tract (Pasco County)

23. On a scale of 1 to 10, with 1 being “Not at All Satisfied” and 10 being “Very Satisfied”, how would you rate your overall experience on the District’s conservation land? (Record number)
24. What was the most important deciding factor to use Southwest Florida Water Management District conservation land for your outdoor activity? (Open ended)
25. Which of the following statements best represents your opinion about the District? (Alternate Options)
- 1) I believe the Southwest Florida Water Management District should acquire conservation lands and make them available to the public for recreational use. This use of public land allows the citizens to witness first hand the natural beauty of Florida.
  - 2) I believe the Southwest Florida Water Management District should acquire conservation lands and restrict the public from accessing them. By restricting access, the District ensures the preservation of Florida’s natural lands.
  - 3) DK/Refuse

We’re almost done. Now I’d like to ask you some questions for classification purposes only.

**Demographics Questions:**

26. How long have you lived in your county? (Do not prompt)

- 1) Less than 1 year
- 2) 1 to 5 years
- 3) 6 to 10 years
- 4) 11 to 15 years
- 5) 16 to 20 years
- 6) More than 20 years

27. Do you live here year-round?

- 1) Yes
- 2) No
- 3) Refused

28. Do you have children younger than 18 years old living in your home?

- 1) Yes (22a. Probe: How many: \_\_\_\_\_)
- 2) No
- 3) Refused

29. What is your present employment status?

- 1) Employed full-time
- 2) Employed part-time
- 3) Voluntarily not in the work force (in school; raising family, etc.)
- 4) Unemployed but not retired
- 5) Retired
- 6) DK/NA

30. What is the highest level of education you have reached so far?

- 1) Less than high school
- 2) High school graduate
- 3) Some college
- 4) College graduate
- 5) Advanced degree (Masters/Doctorate)
- 6) DK/NA

**31. Please identify the annual income category your household falls into?**

- 1) Less than \$20,000
- 2) \$20,000-\$29,999
- 3) \$30,000-\$49,999
- 4) \$50,000-\$74,999
- 5) \$75,000+
- 6) DK/NA

**32. What is your race/ethnicity? (Do not prompt)**

- 1) White/Caucasian
- 2) Hispanic / Latino
- 3) African American/Black
- 4) Asian
- 5) Native American
- 6) Other (specify: \_\_\_\_\_)
- 7) DK/NA

**33. Which of the following age groups are you in?**

- 1) 18-29
- 2) 30-49
- 3) 50-65
- 4) 65 & older
- 5) DK/NA

**34. INTERVIEWER CODE (Do not ask)**

- 1) Male
- 2) Female
- 3) DK/NA

**Closing statement:** Thank you for helping us with this research. Do you have any questions for me? *[If yes, read statement below]*

Thanks again. Good-bye.

**If participants have questions:** I don't know enough about this project to answer that question. But you can contact one of the project coordinators, Dr. Tait Martin at M4 Research to get an answer. His email is [tmartin@m4change.com](mailto:tmartin@m4change.com). *[If the person insists he or she doesn't have email access, give them his phone number: 850-205-0026]*

**Online Survey Instrument**  
**Southwest Florida Water management District**  
**Public Land Use Survey**

**Introduction:** Please take a moment to give us your opinions about leisure and recreation opportunities in your area. There are no right or wrong answers to these questions. We simply want your opinion about the recreational offerings in your region of Florida.

This survey should take about 10 minutes to complete.

**Issue Questions:**

1. Read this list of leisure and recreational activities. Mark whether you find yourself doing this TOO OFTEN, ABOUT THE RIGHT AMOUNT or NOT OFTEN ENOUGH.

Q#	Activity (Mix and Rotate)	Too Often	Right Amount	Not enough	NA/DK
1a	Going to the movies	1	2	3	99
1b	Going out to dinner	1	2	3	99
1c	Going for a hike	1	2	3	99
1d	Boating	1	2	3	99
1e	Camping outdoors	1	2	3	99
1f	Attending sporting events	1	2	3	99
1g	Watching television	1	2	3	99
1h	Shopping	1	2	3	99
1i	Going to amusement parks	1	2	3	99

How much do you agree with each statement below. Mark whether you Strongly Agree, Somewhat Agree, Somewhat Disagree or Strongly Disagree.

Q#	Statement (Mix and Rotate)	SA	A	D	SD	NA/DK
2.	Very few of my friends regularly do outdoor activities like hiking, camping or boating.	1	2	3	4	99
3.	It is difficult to find a good hiking trail near my home.	1	2	3	4	99
4.	I know a lot of people who like to go camping.	1	2	3	4	99
5.	This region of the state – Southwest Florida – is a great place for outdoor recreation.	1	2	3	4	99
6.	Government agencies should spend more money preserving natural lands.	1	2	3	4	99
7.	Using government monies on land preservation is very popular in Florida.	1	2	3	4	99

Think about your participation in outdoor recreational activities away from your home. These activities should be something other than attending or playing an outdoor sporting event, going to a playground or doing activities in your own neighborhood.

8. What would you consider your favorite outdoor recreational activity? (Do not prompt)  
 1) Respondents will write in their answers  
 2) Don't participate in outdoor activities (Skip to Question 19)
9. How many times in the last three months did you participate in that activity?  
 (Respondent will type in their answer)

10. **Last time you did this activity, did anyone accompany you?**  
 1) No, went alone  
 2) Spouse  
 3) Children only  
 4) Entire family (spouse, children, other family members)  
 5) Friends  
 6) A combination of family and friends  
 7) DK/Refuse
11. **What do you enjoy most about of participating in that activity?**  
 (Respondent will type in their answer)
12. **What makes it difficult for you to participate in that activity?**  
 (Respondent will type in their answer)
13. **On average, how much planning time goes into deciding to participate in your favorite outdoor activity?**  
 1) My outdoor/nature plans are usually spur of the moment  
 2) Usually plan a few days in advance  
 3) Usually plan a week in advance  
 4) Usually plan a month in advance  
 5) Usually plan more than a month in advance  
 6) DK/Refuse
14. **Think about the last PLACE you participated in a recreational outdoor activity other than your home. How did you get information about that PLACE?**  
 1) Word-of-mouth  
 2) Internet  
 3) Newspaper  
 4) Magazine ad  
 5) Road sign  
 6) State Park guide  
 7) Other \_\_\_\_\_  
 8) DK/Refuse
15. **Please rate how important the following features are to you when you plan outdoor activities? One is “not at all important to me” and 10 is “very important to me.” (record number)**

Q#	Outdoor Feature (Mix and Rotate)	Rating
15a	Bicycle Trails	
15b	Access facilities for the physically challenged	
15c	Remote campsites only accessible by trails or water bodies	
15d	Full-service camping areas with water and electricity	
15e	Hiking Trails	
15f	Restrooms	
15g	All Terrain Vehicle (ATV) Trails	
15h	24-hour Security	
15i	Bird Watching Areas	
15j	Horse Trails	
15k	Designated Campsites for Recreational Vehicles (RVs)	
15l	Geocaching (Geo-Caching) locations – Scavenger hunts using Global Positioning Devices	
15m	Staff on site, like a park ranger or information desk	

**16. How likely are you to apply for a permit to use public lands for outdoor recreational activities?**

- 1) Very Likely
- 2) Somewhat Likely
- 3) Somewhat Unlikely
- 4) Very Unlikely
- 5) DK/Refuse

**17. Read the list of organizations below. Please mark if you have a favorable or unfavorable opinion of each organization. Please respond Very Favorable, Somewhat Favorable, No Opinion, Somewhat Unfavorable, Very Unfavorable, or Never Heard of.**

Q#		Very Favorable	Somewhat Favorable	Somewhat Unfavorable	Very Unfavorable	No Opinion	Never Heard of
17a	The Florida Park Service						
17b	The Florida Fish and Wildlife Conservation Commission						
17c	The National Park Service						
17d	Your County's Parks and Recreation Service						
17e	The Southwest Florida Water Management District, often referred to as "Swift Mud"*						<b>*Skip to Question 24</b>

**Now, I'd now like to talk to you more about the Southwest Florida Water Management District.**

**18. How familiar are you with the Land Acquisition and Management Program of the Southwest Florida Water Management District?**

- 1) Very Familiar
- 2) Somewhat Familiar
- 3) Somewhat Unfamiliar
- 4) Very Unfamiliar
- 5) Never Heard of the Program
- 6) DK/Refuse

**The primary mission of the Southwest Florida Water Management District is to protect the water resources of the region. Consistent with the mission to protecting the water resources of the area, the District accommodates over 2 million visitors a year to the over 325,000 acres of public conservation lands it manages.**

**19. Are you aware of any Southwest Florida Water Management District conservation land?**

- 1) Yes (Go to 19a)
- 2) No (Go to Question 25)
- 3) DK/Refuse (Go to Question 25)

**19a. Can you name one conservation area managed by the District?**

(Respondent will type in their answer)

**20. Have you ever used any of the Southwest Florida Water Management District land for outdoor recreation purposes?**

- 1) Yes (Go to Question 20a.)
- 2) No (Go to Question 25)
- 3) DK/Refuse (Go to Question 25)

- 20a. What was the last outdoor activity you participate in on the District's land?**  
(Respondent will type in their answer)
- 21. On a scale of 1 to 10, with 1 being "Not at All Satisfied" and 10 being "Very Satisfied", how would you rate your overall experience on the District's conservation land? (Record number)**
- 22. What was the most important deciding factor to use Southwest Florida Water Management District conservation land for your outdoor activity? (Open ended)**
- 23. Which of the following statements best represents your opinion about the District? (Alternate Options)**
- 1) I believe the Southwest Florida Water Management District should acquire conservation lands and make them available to the public for recreational use. This use of public land allows the citizens to witness first hand the natural beauty of Florida.
  - 2) I believe the Southwest Florida Water Management District should acquire conservation lands and restrict the public from accessing them. By restricting access, the District ensures the preservation of Florida's natural lands.
  - 3) DK/Refuse
- 23a. Why do you feel this way? (Respondent will type in their answer)**

**You're almost done. Please answer the following questions for classification purposes only.**

**Demographics Questions:**

**24. What county do you live in?**

- 1) Alachua

**Southwest Florida Water Management District**  
**Public Land Use Survey**

Please take a moment to give us your opinion about leisure and recreation opportunities in your area. There are no right or wrong answers to these questions. We simply want your opinion about the recreational offerings in your region of Florida.

This survey should take about 10 minutes to complete.

1. **Read this list of leisure and recreational activities below. Check whether you find yourself doing this TOO OFTEN, ABOUT THE RIGHT AMOUNT or NOT OFTEN ENOUGH.**

	<i>Recreational Activity</i>	<i>Too Often</i>	<i>Right Amount</i>	<i>Not enough</i>
<b>1a</b>	<b>Going to the movies</b>			
<b>1b</b>	<b>Going out to dinner</b>			
<b>1c</b>	<b>Going for a hike</b>			
<b>1d</b>	<b>Boating</b>			
<b>1e</b>	<b>Camping outdoors</b>			
<b>1f</b>	<b>Attending sporting events</b>			
<b>1g</b>	<b>Watching television</b>			
<b>1h</b>	<b>Shopping</b>			
<b>1i</b>	<b>Going to amusement parks</b>			

**Circle whether you STRONGLY AGREE, SOMEWHAT AGREE, SOMEWHAT DISAGREE or STRONGLY DISAGREE with each statement below.**

2. Very few of my friends regularly do outdoor activities like hiking, camping or boating.

STRONGLY AGREE                      SOMEWHAT AGREE                      SOMEWHAT DISAGREE                      STRONGLY DISAGREE

3. It is difficult to find a good hiking trail near my home.

STRONGLY AGREE                      SOMEWHAT AGREE                      SOMEWHAT DISAGREE                      STRONGLY DISAGREE

4. I know a lot of people who like to go camping.

STRONGLY AGREE                      SOMEWHAT AGREE                      SOMEWHAT DISAGREE                      STRONGLY DISAGREE

5. This region of the state – Southwest Florida – is a great place for outdoor recreation.

STRONGLY AGREE                      SOMEWHAT AGREE                      SOMEWHAT DISAGREE                      STRONGLY DISAGREE

**6. Government agencies should spend more money preserving natural lands.**

STRONGLY AGREE	SOMEWHAT AGREE	SOMEWHAT DISAGREE	STRONGLY DISAGREE
-------------------	-------------------	----------------------	----------------------

**7. Using government monies on land preservation is very popular in Florida.**

STRONGLY AGREE	SOMEWHAT AGREE	SOMEWHAT DISAGREE	STRONGLY DISAGREE
-------------------	-------------------	----------------------	----------------------

**Think about your participation in outdoor recreational activities away from your home. These activities should be something other than attending or playing an outdoor sporting event, going to a playground or doing activities in your own neighborhood.**

**8. What would you consider your favorite outdoor recreational activity?**

*Favorite Outdoor Activity* \_\_\_\_\_

**9. How many times in the last three months did you participate in that activity? \_\_\_\_\_**

**10. Who accompanied you the last time you participated in that activity?**

**11. What do you enjoy most about of participating in that activity?**

**12. What makes it difficult for you to participate in that activity?**

**13. On average, how much planning time goes into deciding to participate in your favorite outdoor activity?**

(Circle One)

- 1) My outdoor plans are usually spur of the moment
- 2) Usually plan a few days in advance
- 3) Usually plan a week in advance
- 4) Usually plan a month in advance
- 5) Usually plan more than a month in advance

14. Think about the last **PLACE** you participated in a recreational outdoor activity other than at your home. How did you get information about that **PLACE**?  
(Circle One)

- 1) Word-of-mouth
- 2) Internet
- 3) Newspaper
- 4) Magazine ad
- 5) Road sign
- 6) State Park guide
- 7) Other: \_\_\_\_\_

15. Please rate from 1 to 10 how important the following features are to you when you plan outdoor activities: 1 is “not at all important to me” and 10 is “very important to me.” Write the number in the rating column.

	Outdoor Feature	Rating
a)	Bicycle Trails	
b)	Access facilities for the physically challenged	
c)	Remote campsites only accessible by trails or water bodies	
d)	Full-service camping areas with water and electricity	
e)	Hiking Trails	
f)	Restrooms	
g)	All Terrain Vehicle (ATV) Trails	
h)	24-hour Security	
i)	Bird Watching Areas	
j)	Horse Trails	
k)	Designated Campsites for Recreational Vehicles (RVs)	
l)	Geocaching locations – Scavenger hunts using Global Positioning Devices	
m)	Staff on site, like a park ranger or information desk	

16. How likely are you to apply for a permit to use public lands for outdoor recreational activities? (Circle One)

- VERY LIKELY**                      **SOMEWHAT LIKELY**                      **SOMEWHAT UNLIKELY**                      **VERY UNLIKELY**

17. Read the list of organizations below. Mark if you have a favorable or unfavorable opinion of each organization. Place a check in the appropriate column for each organization.

		Very Favorable	Somewhat Favorable	Somewhat Unfavorable	Very Unfavorable	No Opinion	Never Heard of
A	The Florida Park Service						
B	The Florida Fish and Wildlife Conservation Commission						
C	The National Park Service						
D	Your County's Parks and Recreation Service						
E	The Southwest Florida Water Management District						

Now, I'd now like to talk to you more about the Southwest Florida Water Management District.

18. How familiar are you with the Land Acquisition and Management Program of the Southwest Florida Water Management District? (Circle One)

VERY FAMILIAR      SOMEWHAT FAMILIAR      SOMEWHAT UNFAMILIAR      VERY UNFAMILIAR      NEVER HEARD OF

The primary mission of the Southwest Florida Water Management District is to protect the water resources of the region. Consistent with the mission to protecting the water resources of the area, the District accommodates over 2 million visitors a year to the over 325,000 acres of public conservation lands it manages.

19. Can you name one conservation area managed by the District?

\_\_\_\_\_

20. Have you ever used any of the Southwest Florida Water Management District land for outdoor recreation purposes? (Circle One)

1) Yes

2) No (Go to Question 24)

20a. What was the last outdoor activity you participated in on the District's land?

\_\_\_\_\_

21. On a scale of 1 to 10, with 1 being "Not at All Satisfied" and 10 being "Very Satisfied", how would you rate your overall experience on the District's conservation land?

Rating \_\_\_\_\_

22. What was the most important deciding factor to use Southwest Florida Water Management District conservation land for your outdoor activity?

**23. Which of the following statements best represents your opinion about the District? (Circle One)**

- 1) I believe the Southwest Florida Water Management District should acquire conservation lands and make them available to the public for recreational use. This use of public land allows the citizens to witness first hand the natural beauty of Florida.
- 2) I believe the Southwest Florida Water Management District should acquire conservation lands and restrict the public from accessing them. By restricting access, the District ensures the preservation of Florida's natural lands.

**23a. Why do you feel this way?**

**You're almost done. Please answer the following questions for classification purposes only.**

**24. What county do you live in? \_\_\_\_\_**

**25. How long have you lived in your county? (Circle One)**

- 1) Less than 1 year
- 2) 1 to 5 years
- 3) 6 to 10 years
- 4) 11 to 15 years
- 5) 16 to 20 years
- 6) More than 20 years

**26. Do you live here year-round? (Circle One)**

- 1) Yes
- 2) No

**27. Do you have children younger than 18 years old living in your home? (Circle One)**

- 1) Yes (How many: \_\_\_\_\_)
- 2) No

**28. What is your present employment status? (Circle One)**

- 1) Employed full-time
- 2) Employed part-time
- 3) Voluntarily not in the work force (in school; raising family, etc.)
- 4) Unemployed but not retired
- 5) Retired
