

# Water Conservation Game

*Don't be puzzled over Florida's future. Take steps today to conserve water.*

Get ready to save water for our future! This game is for two or more players and the goal is to be the environmental detective who saves the most water. Players will follow the steps around Florida and end their journey at the Southwest Florida Water Management District.

## DIRECTIONS

1. Cut out the game pieces included on page 2. One die, a pencil and paper will also be needed.
2. The first player puts his/her game piece on **START**, rolls the die and moves the number of spaces on the die. Players then take turns rolling the die and moving their pieces.
3. Follow the directions on the gameboard.

Our traditional water supply comes from groundwater and surface water.  
**Score 4 drops.**

Florida-friendly gardening is a way to have an attractive landscape while practicing water conservation.  
**Move ahead 4 steps.**

Water moves through our environment in an endless cycle called the hydrologic cycle.  
**Move ahead 3 steps.**

Reclaimed water is a way to provide us with an alternative water supply.  
**Move ahead 1 step.**

Florida depends on its average yearly rainfall of 53 inches to replenish the water supply.  
**Score 2 drops.**

Although stormwater is one of the biggest sources of water pollution, it can be an alternative water supply.  
**Score 3 drops.**

The demand for water will increase as land is altered and developed for our rapidly growing population.  
**Move ahead 4 steps.**

There are many ways for people to become involved in projects that contribute to water resources solutions.  
**Move ahead 2 steps.**

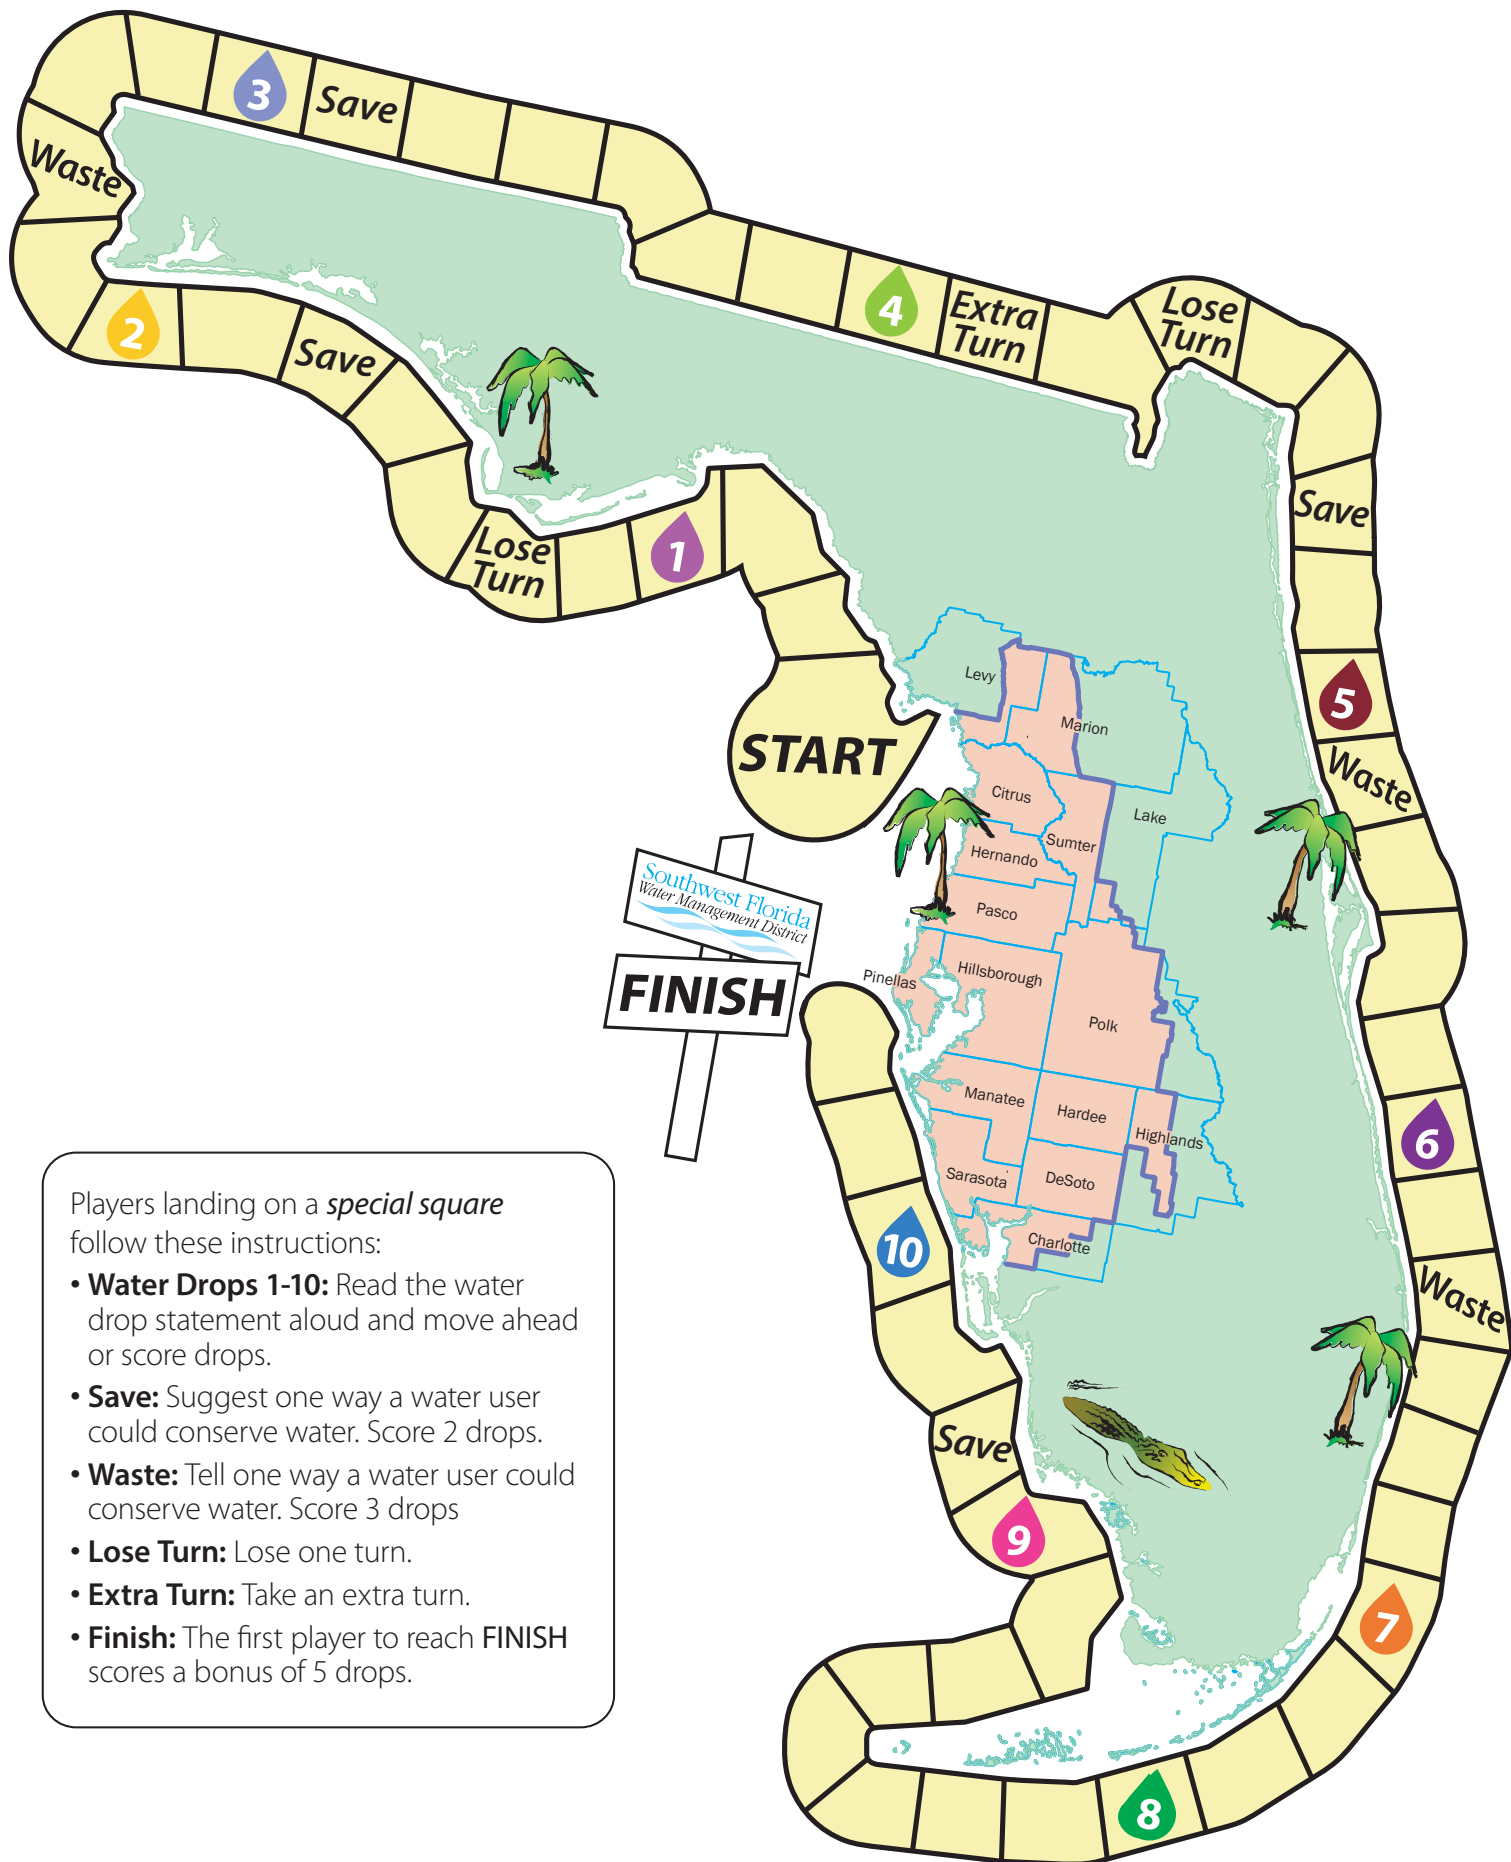

Water conservation is all about practices that use less water.  
**Score 3 drops.**

It's up to all of us to do our part to help conserve water for our future.  
**Score 1 drop.**
