

# SOUTHWEST FLORIDA WATER MANAGEMENT DISTRICT ENVIRONMENTAL RESOURCE PERMIT (ERP) MODIFICATION SHORT FORM

SUBMIT AN ORIGINAL AND TWO COPIES OF THIS FORM AND OTHER RELATED INFORMATION TO ONE OF THE DISTRICT OFFICES LISTED BELOW. NO FEE REQUIRED. PLEASE PRINT OR TYPE ALL TEXT. To qualify for a modification using this modification short form, the permittee must submit sufficient information with this application so that a request for additional information is not required to verify compliance with the permit rules and threshold qualifications for modification, and a separate Statement of Completion and As-built is not required to verify compliance with the permit.

To Whom It May Concern:

This is a request to modify the above-referenced District approved ERP construction permit pursuant to Section 40D-4.331(2)(b) 1. -6., Florida Administrative Code ( F.A.C.). The requested modification does not: (1) expand or substantially alter the permit authorization (substantially alter means a change to the project that affects either the system design, construction or operation, which is reasonably expected to lead to substantially different water resource or environmental impacts and requires detailed permitting review and evaluation), (2) increase the authorized off site discharge, (3) impact the environmental features of the project, (4) decrease the required retention/detention, (5) decrease the required flood control elevations for roads or buildings, or (6) decrease pollution removal efficiency. Attached is documentation (plans, drawings, calculations, etc.) which addresses these requirements and supports the request for a modification. The undersigned Engineer certifies that the engineering features of this surface water management system have been:

(check one)  designed by me or under my responsible charge,  
 reviewed by me or under my responsible charge,

and in my professional opinion, this system conforms with sound engineering principles and all applicable rules and specifications.
