April 18, 2018

**RFB 1802
BALM BOYETTE – STALLION HAMMOCK RESTORATION**

**ADDENDUM #2
(Acknowledgment is Required)**

Prospective Bidders must acknowledge the receipt of this Addendum in the applicable section on the Bid Response Form. Please note that underlined information (example) is added wording and stricken information (~~example~~) is deleted wording.

Please note the following important information for the above referenced solicitation:

As part of a separate effort at the District, LiDAR survey data has been acquired in the Alafia River Basin that includes the project area of the Balm Boyette – Stallion Hammock Restoration Project. This survey only recently became available and was unavailable during the original project design. This new data is currently being evaluated by the Engineer of Record. A future Addendum will be issued no later than April 27, 2018 to extend key dates. It is possible that revised plan sheets incorporating the LiDAR data will be issued. Additional time will be provided for questions and the bid opening date will be extended. The bid opening will be extended a minimum of two weeks.
