# Reptiles

Through its efforts to protect water resources, the Southwest Florida Water Management District buys and manages land. As a result, plants and animals that live on these lands are also protected and the public can enjoy recreational and educational activities in the great outdoors. For a more comprehensive list containing birds, mammals, butterflies, frogs, toads, insects, trees, shrubs, reptiles, wildflowers and natural communities, please visit

[WaterMatters.org/species](http://WaterMatters.org/species)

\* Introduced species  
\*\* Endemic to Florida  
Reptiles outlined in red are venomous
